Passion & Purpose

ages
10-12

GEORGIA STATEWIDE AFTERSCHOOL NETWORK

About the Summer Activity Guides

Summers are for fun and engaged learning. In 2020 as the impact of the pandemic is widely felt, summer opportunities will be different for young people, families, and afterschool and summer program staff. The Summer Activity Guides were developed to help engage youth with supportive adults in a range of places.

The activities and resources in the Summer Activity Guides are intentionally designed to support youth-serving summer programs in driving consistent engagement and providing ongoing opportunities for youth skill-building and emotional well-being. In addition to the activities for youth, supplemental materials will be available to support professional development and enhance family engagement.

The Guides include 150 original activities and challenges organized by four different age groups (5-9) (10-12) (13-15) (16-18). The activities are adaptable for in-person and virtual instruction, or a hybrid of both, as well as sent as take-home packets.

All activities should be safely executed and aligned with state and local health guidelines.

Summer Activity Guide by Georgia Statewide Afterschool Network and the 50 State Afterschool Network is licensed under CC BY-SA 4.0. To view a copy of this license, visit <https://creativecommons.org/licenses/by-sa/4.0>

Gratitude Letter

ACTIVITY DESCRIPTION

Gratitude is linked to increased social and emotional well-being in youth. In this SEL (social and emotional learning) activity, youth will practice gratitude by writing a 'thank you' letter to someone they appreciate. As part of the 'Passion and Purpose' unit, this is designed to help youth identify supportive individuals in their lives. This activity encourages self-awareness, social awareness, and self-management.

SUPPLIES

- Pencil or pen
- Gratitude Letter Worksheet
- [Optional] Plain paper and crayons or markers to draw a thank you card if not using the worksheet

STEPS

- Writing a 'thank you' letter is a great way to practice gratitude (also called thankfulness).
- Think of someone that you know that you are thankful for. Think of someone who:
 - cares for you,
 - supports you,
 - teaches you things,
 - that you have fun with,
 - and more
- This person could be a parent, guardian, teacher, friend, relative, coach, staff person at your afterschool or summer program, or someone else.
- You can use the Gratitude Letter Worksheet to write your letter. Or, you can draw a thank you card for that person using paper and crayons or markers.
- When you are done, send your letter to that person if you are able to. You can email it to them, take a picture and text the photo to them, send it in the mail, or write it in a text.

ADAPTATIONS

- If delivering the activity in-person or virtually, have youth discuss people in their lives who they are grateful for and why they are thankful for them before writing the letter.
- If delivering the activity digitally or virtually, post the template in a Word document so that youth can type in their responses.

EXTENSIONS

- Create gratitude journals where you write down 3 good things from your day, every day. For a helpful template, check out: <https://www.therapistaid.com/therapy-worksheet/gratitude-journal-three-good-things>

QUESTIONS FOR DISCUSSION

- Who did you write a thank you letter to? Why is this person special to you?
- How did writing the letter make you feel?
- What are some other things that you are grateful for (like things you love to do, things that make you smile, things you couldn't live without)? Why are you thankful for these things?
- Why is it helpful to pay attention to things that you are thankful for?

CREDITS: Therapist Aid's Gratitude Letter available at <https://www.therapistaid.com/therapy-worksheet/gratitude-letter/positive-psychology/children>

Gratitude Letter Worksheet

Instructions: Use this worksheet to write a letter to someone you are thankful for. When you are done, send your letter to that person if you are able to.

To: _____

Thank you for being my _____

I am thankful for you because...

Some things that I enjoy doing with you are...

You are important to me because...

From: _____

Virtual Field Trip

ACTIVITY DESCRIPTION

In this STEM activity, youth will explore the natural wonders of Yosemite National Park, virtually! As part of the 'Passion and Purpose' unit, this activity will help inspire youth to be curious explorers and foster a love of nature. This activity supports the development of curiosity, perspective-taking, and environmental education.

SUPPLIES

- Computer or mobile device
- Internet access

STEPS

- Exploring new places can inspire you and help you find new interests and passions.
- Today we are going to take a field trip to Yosemite National Park.
- First, using a computer or mobile device go to Virtual Yosemite at <https://www.virtualyosemite.org>. (The tour is best experienced on a large screen such as a desktop computer monitor.)
- Select "Explore the park" to begin your tour. Make sure you also turn your sound on so you can hear the sounds of the park.
- Start by clicking on any of the red bullseyes you see. Each bullseye will bring you to a different part of Yosemite.
- At each location, you can move the screen to get a complete view of the area, as well as zoom in and out. You can also read more about each place on the right-hand side of the screen.
- Can you find some of Yosemite's most famous sites?
 - El Capitan
 - Half Dome
 - Gates of the Valley

ADAPTATIONS

- If delivering the activity virtually, go on the field trip together. The facilitator can share their screen for youth to watch, or youth can choose their own adventure and discuss what they see.
- If you believe your youth would like a different field trip instead of Yosemite, select a new location from this list: <https://typicallytopical.com/30-virtual-field-trips-for-kids/>

EXTENSIONS

- Use materials you can find around the house (like paper, sheets, pillows, tape, boxes, etc.) to make items for the field trip that you would use at Yosemite National Park - like a tent, binoculars, or a camera.
- Go on another virtual field trip and explore other parts of the world, or even space! Here is a great list to get you started: <https://typicallytopical.com/30-virtual-field-trips-for-kids/>
- Explore the world or your hometown using Google Earth: <https://www.google.com/earth/>
- Create your own field trip in your community by taking photos of special places and adding interesting stories or facts about the places.

QUESTIONS FOR DISCUSSION

- What did you expect to see? Was it similar to what you expected? Why or why not?
- Do you want to go there in real life? Why or why not?
- What are other places you like to visit? Why?
- Have you been to other places that are really different from where you live?

CREDITS: Image credit: Sunny Room

Passion Playlist

ACTIVITY DESCRIPTION

In this social and emotional learning (SEL) and music activity, youth will create a playlist of songs that inspire them. As part of the 'Passion and Purpose' unit, this activity will help youth connect music to their passion and interests. This activity encourages the development of self-awareness and self-management.

SUPPLIES

- Computer or mobile device
- Internet access
- YouTube or free Spotify account*

STEPS

- Listening to inspiring songs is a great way to lift up your mood, make you smile, and motivate you.
- In this activity, you will create a playlist of the Top 10 songs that inspire you.
- Think about songs that pump you up, make you get off the couch, or make you want to draw, write, or run faster. Pick songs that also make you think of people you admire or places you visited that inspired you.
- For inspiration, look up songs on YouTube or Spotify and listen to the lyrics. What's the song's message? How is the artist trying to make you feel?
- Write down 10 songs that inspire you. Include the name of the artist and the song title.

ADAPTATIONS

- *Create a Spotify playlist together with youth. Youth can contribute song ideas to a group playlist. Follow these instructions to create the playlist: <https://www.pcmag.com/how-to/how-to-create-a-spotify-playlist>
- If delivering the activity virtually, have youth share out a few of the songs they selected and why they selected them.
- If delivering digitally or through take-home packets, encourage youth to post the songs they included to your program's platform, if applicable.

EXTENSIONS

- *Turn your written list into a Spotify playlist. Ask your parents to create a free account and then follow these instructions: <https://www.pcmag.com/how-to/how-to-create-a-spotify-playlist>
- Share your playlist with a friend or family member. Listen to it together and talk about what the music means to you.
- Listen to the playlist and write a poem or new song lyrics that goes with how the music makes you feel.
- Google your favorite artists. What's their story? What inspired them to make their music?

QUESTIONS FOR DISCUSSION

- How does listening to your music make you feel?
- What does this music inspire within you?
- Is there a specific person or place that you think of when you listen to your playlist?
- Do you have a favorite song? Why is it your favorite?

CREDITS: Image credit: Brothers Family

Gift Box

ACTIVITY DESCRIPTION

In this SEL (social and emotional learning) and art activity, youth will explore the things that they enjoy doing and the things that make them special. As part of the 'Passion and Purpose' unit, this activity is designed to help youth begin to identify what they are passionate about. This activity encourages self-awareness and self-management skills.

SUPPLIES

- Gift Box Worksheet
- Small – medium container or box
- Scissors
- Markers
- [Optional] Craft items to decorate your box like magazines, stickers, etc. and glue

STEPS

- Recognizing and exploring the things that make you special and the things you enjoy doing can help you figure out what your passions are.
- Passions are things that you have a strong liking for and greatly enjoy doing like art, music, doing science experiments, playing soccer, helping others, taking care of animals, reading, and many more.
- In today's activity you will focus on who you are on the inside, such as the things you are good at, things you enjoy doing, things you are proud of, things that you enjoy learning about, and more.
- Fill out the Gift Box Worksheet by writing or drawing your response to each of the sentence starters.
- Cut up the pieces of paper and add them to your "gift box".
- You can also add items to your gift box too like small objects, notes or photos that remind you of the things you enjoy doing.
- Use markers and craft items to decorate the outside of your box.

ADAPTATIONS

- If delivering the activity in-person or virtually, have each youth share a few of their gifts with the group out loud.
- If delivering the activity digitally, create a space where youth can post a few of their gifts and strengths. You can also create a space where youth can recognize their peers by contributing to each other's gifts.

CREDITS: South Lake's Federation's My Gifts and Qualities' available at <https://www.cumbria.gov.uk/eLibrary/Content/Internet/537/6381/42179103424.pdf>

EXTENSIONS

- Recognize the strengths, positive qualities and gifts of your peers and ask them to recognize you. Add the things that they share about you to your "gift box".
- Make a "summer love" box that you add to all summer. You can add things that you enjoy about the summer, things that you did during your summer, and things that you are looking forward to.

QUESTIONS FOR DISCUSSION

- What was it like to write down the things that you enjoy doing? How did it make you feel?
- What are some of the things you wrote down?
- What is something that you are passionate about that was not included in your container?
- Was it challenging to answer any of the questions? Why or why not?
- What did you learn about yourself from this activity?

Gift Box Worksheet

Instructions: Passions are things that you have a strong liking for and greatly enjoy doing. Finish each sentence starter by writing or drawing your response. Cut up the pieces of paper and add them to your “gift box”.

One thing I really enjoy doing is...	I feel safe when I am...
If I could do anything I wanted to all day, my day would look like...	Something that I like learning about is...
My favorite subject is...	Something I would like to learn more about is...
Something I am proud of is...	If I could have any job when I get older it would be...
Someone who inspires me is...	One thing that makes me special is that I...

Meaningful Mealttime

ACTIVITY DESCRIPTION

In this social and emotional learning (SEL) activity, youth will create a jar with conversation starters to use with their families. As part of the 'Passion and Purpose' unit, this activity will help youth think about what excites and motivates them and how to have meaningful conversations. This activity supports the development of self-awareness, relationship-building and communication.

SUPPLIES

- Scissors
- Jar or box
- Paper
- Markers, colored pencils or crayons
- Clear tape

STEPS

- Talking to your family and friends about what interests and excites you, is a great way to build support and to create a stronger bond between you.
- We are going to create a fun way for you to have conversations with your families and friends about your passions and interests, and to hear about theirs.
- To create your own Meaningful Mealttime, first cut out 10 to 20 small pieces of paper. Each piece of paper should be long enough to write one sentence (about 3 inches).
- On each piece of paper, write a question prompt related to passion and purpose. These can include:
 - The one thing I can talk about for hours is _____.
 - What was the last time you were doing something and lost track of time because you liked the activity so much?
 - If you could be remembered for one thing, what would it be?
 - If you won the lottery, what would you do with the money?
 - What kind of person do you want to become?
 - Who do you look up to?
 - If you could change one thing about your community, what would it be.
 - I feel most like myself when I am _____.
 - A new skill or hobby I really want to learn is _____.
- Put the pieces of paper in a jar or box. If you'd like, you can decorate the outside of the box or jar, and add a "Meaningful Mealttime" label to the outside.
- At your next family gathering or hang out with a friend, take turns picking a topic from the jar and responding to it.

ADAPTATIONS

- If delivering the activity virtually or in-person, have youth share out their favorite topic or questions, and take turns answering the questions.

EXTENSIONS

- Add more topics to your jar. Have family members or friends suggest new topics and questions to add.
- Turn one thing from your conversation into action. For example, if someone likes volunteering, make a plan to volunteer together.
- Programs can use the topics for opening and closing their virtual or in-person sessions. Select a few topics and have each youth give a response, or put youth in small groups to answer the topics.
- Host a virtual dinner party! Create an online gathering with friends or family members. You can use the poll features to ask questions, and then have a conversation about your answers.

QUESTIONS FOR DISCUSSION

- Which questions or topics did you like the most? Least?
- What are some ways you might respond if someone says something you disagree with?
- What are important skills you have to use when communicating?

Stay Positive Journal

CHALLENGE DESCRIPTION

In this language arts and social and emotional learning (SEL) challenge, youth will reflect on the positive parts of their day for four consecutive days. As part of the 'Passion and Purpose' unit, this challenge will help youth identify examples of where they excel or contributed positively to their home or community. This challenge supports the development of writing skills, self-awareness, and self-motivation and communication.

SUPPLIES

- Paper (any color)
- Pencil or pen
- Stay Positive Journal Worksheet

STEPS

- In this challenge, you will spend some time thinking about your positive qualities and the positive things you do for others.
- Throughout the day, pay attention to when you do something well or you see something positive happening in your home or community. If you can, write it down so you remember it later
- Use the Stay Positive Journal Worksheet to think about your positive qualities and the kind things you do for others.
- Complete the three sentences for the day. Give details on when, what and where. For example, *I felt proud when I helped my sister with her homework without being asked.*
- Do this challenge for 4 days in a row.

ADAPTATIONS

- If facilitating in-person, put youth in small groups to share out some of their journal responses. If facilitating virtually, you can also put youth in small groups using the breakout room function of most virtual platforms, like Zoom and GoToMeeting. Afterwards, discuss if keeping a positive journal helped youth focus more on the positive aspects of their day.

EXTENSIONS

- Keep the journal going. Make a habit of noticing the positive experiences in your life and writing or drawing about them in a journal at the end of the day.
- Check out the "Gift Box" activity where you will continue to explore your identify positive qualities and your interests.
- Challenge yourself to try out the "10 Days of Kindness Challenge" where you will do 1 random act of kindness each day for 10 days.
- Is there something good that happened that you would like to do more often? Start with setting goals for yourself, and then create a habit. For example, maybe you wrote down in your journal that you were proud of yourself for biking. Set a goal to bike more often, or invite a friend to bike with you.
- You are more likely to feel better about yourself when you help other people. Check out <https://www.dosomething.org> for ideas on how to give back.

CREDITS: Therapist Aid's Self Esteem Journal, available at: <https://www.therapistaid.com/worksheets/self-esteem-journal.pdf> Image Credit: Santi-vedri

Stay Positive Journal Worksheet

Instructions: Complete a journal entry each day for four consecutive days. At the end of the day, think about the positive experiences you had that day and complete the two sentences. You can either draw or write your responses. Repeat this process for the remaining three days.

DAY 1	Today's Date:	
	Something I did well today...	
	Today I had fun when...	
	Something someone else did for me that I appreciated today...	

DAY 2	Today's Date:	
	Today I accomplished...	
	I had a positive experience with...	
	Something I did for someone...	

Stay Positive Journal Handout

DAY 3	Today's Date:	
	I felt good about myself when...	
	I was proud of someone else...	
	Today was interesting because...	

DAY 4	Today's Date:	
	I felt proud when...	
	A positive thing I witnessed...	
	Today I accomplished...	

Strong Roots

ACTIVITY DESCRIPTION

In this SEL (social and emotional learning) activity, youth will explore the supports that they have in their lives. As part of the 'Passion and Purpose' unit, this activity is designed to help youth identify the people that support them, the opportunities they have, and their positive beliefs about themselves. This activity encourages self-awareness, self-efficacy, and self-confidence.

SUPPLIES

- 2 pieces of brown construction paper
- Pen or pencil
- Green crayons or markers
- Scissors
- Tape or glue
- Leaf Worksheet

STEPS

- Having people in your life who believe in you and support you, having the chance to try and do certain things, and believing in yourself and your abilities helps you to do the things you are passionate about.
- Passions are things that you have a strong liking for and greatly enjoy doing like art, music, doing science experiments, playing soccer, helping others, and reading.
- In today's activity you will explore the supports in your life that can help you do the things you are passionate about.
- Cut one piece of brown paper in half, the long way. Lay your paper flat on the table. Tape or glue the 2 pieces together to make a tree trunk.
- Draw some branches from the other piece of brown paper. Cut them out and tape or glue them to your tree trunk.
- Fill out the Leaf Worksheet to identify:
 - People who support you
 - Things you get to try and do (like play sports, try out an instrument, cooking or baking, visit a new place)
 - Your positive thoughts about yourself
- Use the green markers or crayons to color your leaves.
- Cut out the leaves. Lay the leaves out flat on the table and tape or glue them to your tree branches.

ADAPTATIONS

- If delivering the activity in-person or virtually, have each youth share what they wrote on a few of their leaves with the group.

EXTENSIONS

- Create a tree for your classroom or group and have all youth add their leaves to the tree.
- Create a family tree where youth identify the history, strengths and traditions of their families/caregivers and culture. What makes your family special? What traditions do you share? What makes your family strong? What things do you like to do together? How does your family support each other?

QUESTIONS FOR DISCUSSION

- What was this activity like for you? What was easy? What was hard?
- Who are some of things that you wrote about on your leaves?
- Are there things that you learned from your family or your community? What are they?
- How does having these things in our lives help us do the things we are passionate about?
- How are the things that we shared different from each other? How do these differences make us special?
- How can we support each other? What are some of the things that we can do to support each other?

Leaf Worksheet

Instructions: In two leaves, write the names of people who support you. In two leaves, write things that you have had the chance to try out or do (like play sports, try out an instrument, cooking or baking, visit a new place). In the last two leaves, write positive thoughts about yourself (like “I like to try new things” or “when things are hard, I keep trying”).

Acts of Kindness Challenge

CHALLENGE DESCRIPTION

In this challenge, youth will perform a simple act of kindness each day for 10 days. As part of the 'Passion & Purpose' unit, this social and emotional learning (SEL) activity and service-learning activity is designed to help youth develop generosity and compassion. This activity supports the development of self-awareness, respect for others, empathy, and leadership skills.

SUPPLIES

- A copy of '50 Simple Acts of Kindness: Just for Kids': <https://www.createkidsclub.com/wp-content/uploads/2017/11/Acts-Of-Kindness-12.13-1.pdf>
- Pen or pencil

STEPS

- We need to distance ourselves but that doesn't mean we can't help each other. Doing small acts of kindness can help people feel more connected and cared-for. Doing small acts of kindness can also help you feel joyful.
- In this challenge you will try to do one simple act of kindness every day for 2 weeks in a row.
- First, look at the ideas in the handout '50 Simple Acts of Kindness'. You can also check out: <https://inspirekindness.com/blog/kindness-ideas-kids-covid19-coronavirus>. Circle or underline the ideas that you like and that you could do safely with social distancing in place.
- Then, see if you can add some ideas to the list. What else could you do that could help someone out or make someone's day a little easier? Try to come up with 5 ideas.
- Try to do 1 act of kindness every day for 2 weeks in a row.

ADAPTATIONS

- If facilitating the activity in-person or virtually, review the ideas on the '50 Simple Acts of Kindness' list with youth and then have them share some ideas for additional acts of kindness they could do. Work together to create a list.
- If facilitating the activity digitally, virtually or in-person, create a shared tracker where youth can check off each day and share what kind act they did.
- If delivering the activity through take-home resources, encourage families to do acts of kindness together and talk about their experiences. The following link includes kindness ideas and discussion questions for families: <https://www.doinggoodtogether.org/bhf/30daykindnesschallenge>

EXTENSIONS

- Try to do 1-3 acts of kindness that you've never done before.
- Try to do something nice for someone without them knowing it was you who helped them.
- Participate in the 'Happy Heart Hunt' by making a heart from any object and taping it to a street-facing window to send your love out to the world. For more information: <https://kidsforpeaceglobal.org/happyheart Hunt/>
- For a ton of great kindness building activities, check out the Random Acts of Kindness Foundation at: <https://www.randomactsofkindness.org/>

CREDITS: '50 Simple Acts of Kindness: Just for Kids' available at: <https://www.createkidsclub.com/wp-content/uploads/2017/11/Acts-Of-Kindness-12.13-1.pdf>

Invent a Better World

ACTIVITY DESCRIPTION

In this social and emotional learning (SEL) activity, youth will create an invention that helps to solve a problem in their home or community. As part of the 'Passion and Purpose' unit, this activity supports the development of analyzing situations, solving problems, perspective taking, self-efficacy and creativity.

SUPPLIES

- Common materials found around the home, such as tape, paper, string, glue, rubber bands, garbage bags, and scissors.

STEPS

- In this activity, you will think of a challenge in your home or community that can be made better with a new invention. Think about moments you or someone in your home or community regularly feel frustrated.
- If you can't think of a challenge, that's okay. You can select from this list below.
 - Make a new 6 pack holder - Invent something that can hold six cans that's safe for animals, while also, sturdy and easy to carry. Materials could include string, duct tape, cardboard, or rubber bands. For more ideas on holders, take a look here: https://pbskids.org/designsquad/pdf/parentseducators/DS_Invent_3_Harmless_Leader_ENG.pdf
 - Make an emergency shelter – Invent something that a hiker or someone in an emergency could take shelter in. Materials could include garbage bags, sticks, tape and string. For more ideas on shelters, take a look here: https://pbskids.org/designsquad/pdf/parentseducators/DS_Invent_4_Speedy_Leader_ENG.pdf
 - Create a game – Invent an indoor game that gets kids off their couch and moving. Materials could include balls (any shape or size), cups or other containers, string, and tape.
- Once you have picked the problem you want to solve, describe what qualities your invention should have and what it should do. For example, "it should be large and lightweight. It should be able to keep someone warm and dry."
- Get the materials you need, and build your invention.
- Test your invention. Does it have all of the qualities you wanted?

ADAPTATIONS

- If delivering the activity virtually, have youth share out the problem they are trying to solve and their inventions.
- If delivering digitally or through take-home packets, encourage youth to share photos of their invention on your platform.

EXTENSIONS

- Keep a journal of invention ideas with you and be ready to write your ideas down when you feel inspired.
- Find a container where you can collect supplies that you might use for inventions.
- Keep it going. Think of different challenges in your home and community and create new inventions.

QUESTIONS FOR DISCUSSION

- How did you come up with your invention? What was the problem you were trying to solve?
- How did you know if you were successful?
- Did your invention work the first time you tested it? If not, how did you fix it?

CREDITS: PBS Kids' "Invent It, Build It", available at: https://pbskids.org/designsquad/pdf/parentseducators/DS_Invent_Guide_Full.pdf

Differences & Similarities

ACTIVITY DESCRIPTION

This SEL (social and emotional learning) activity introduces ideas of diversity and inclusion. As part of the 'Passion and Purpose' unit, this activity is designed to help youth begin to identify how differences make people special and unique, to not judge people by their outsides, and to treat others fairly. This activity encourages perspective-taking, appreciating diversity, respect for others, and empathy.

SUPPLIES

[Note: If this activity is being delivered in-person or virtually to a group, only the person facilitating needs to have these supplies]

- 1 white egg
- 1 brown egg
- 1 egg with a spot or a mark on it (any color)
- 1 egg with a small crack in it (not enough to break the egg open). Make a small crack if none of your eggs have cracks.
- 1 bowl for each egg

STEPS

- [Note: This activity involves discussion on diversity and inclusion and is best completed with a staff member or family member. You may find it helpful to review a few key principles for discussing diversity and inclusion prior to this activity:
<https://www.tolerance.org/magazine/publications/beyond-the-golden-rule/the-elementary-preteen-years-ages-612/principles-to>]
- Being different is not a bad thing. Being different is a good thing. Our differences allow us to make unique and special contributions to our communities and to our world.
- Sometimes people forget this though and we don't include or treat people kindly and fairly who are different.
- When it comes to who we are on the inside, we have a lot of things in common.
- Gently lay out the eggs. And look closely at the:
 - Size
 - Color
 - Any marks
 - Cracks
- How are they similar? How are they different?
- Guess what each of the eggs will look like on the inside.
- Crack each egg open in a bowl. How do the eggs look on the inside?
- Even though the eggs look different on the outside, they are all the same on the inside!

STEPS (continued)

- How are these eggs like people?
- We may be different sizes, shapes, have different skin colors, or have differences in ability. On the inside, though, we all have the same things - like, blood, muscles, a heart, a brain, and thoughts and feelings.
- What would it be like if we were all exactly the same?
- Our differences are what makes our program, our schools, our communities and our world more interesting and exciting.
- Why is it important to recognize our differences?
- The ways that we are different – our skin color, our abilities, our size, our shape – means that we all have different experiences in the world. These experiences make us who we are.
- Have you ever been judged for being different? What was that like? How did that feel?
- What are some of the differences that you are proud of?
- How could this activity change the way you think about or treat people?

Differences & Similarities

ADAPTATIONS

- If eggs are difficult to obtain, you can also use M&Ms for a similar lesson. Click here for more details:
<https://jewishspecialneeds.blogspot.com/2019/02/using-m-to-teach-diversity-and.html>
- If delivering the activity in-person or virtually, you will only need one set of materials for the facilitator to display.
- If delivering this activity digitally or through a take-home packet, it is recommended that parents/caregivers to participate in the activity alongside their children in order to support discussion.

EXTENSIONS

- Diversity and inclusion are best taught over an extended period of time, by incorporating lessons, practices and conversations into your everyday programming. The Random Acts of Kindness Foundation offers a free, CASEL aligned out-of-school time curriculum for pre-K through 6th grade with 15-30 minute lessons that focus on respect, caring, inclusion, integrity, responsibility, and courage:
<https://www.randomactsofkindness.org/for-educators>
Sign up and then scroll down to find 'Kindness Beyond the Classroom' rather than the school-based program.
- If your program has been established as a safe space, some youth may feel comfortable sharing their own challenges and/or disabilities as part of the dialogue. This may provide an opportunity to discuss "invisible disabilities" such as dyslexia, anxiety, autism, etc.
- Make one list of things that others would know about you from just looking at you. Make another list of things that people would not know about you just by looking at you. Which list has more things on it? What are the things on your lists that feel most important to you? What does this teach you about yourself and others? (Consider using the Inside Outside Self-Portrait in the Healthy Life unit as a good starting point for this extension).

QUESTIONS FOR DISCUSSION

- See the activity steps for questions to discuss throughout and after the activity.
